A Paradox

Gershwins know the book is shit,
   write melodies to bridge

orangutang inanities. Revivals
   stress the oh so inno-
      cent cutesy-wootsey

never was. The glittery maiden
      perching on a half
           moon in the logo,

   to get her lower outfit off
      you'll have to get it up.
